

# EURO CASE

## Cajas de sobremesa de gran formato

Las EURO CASE son inteligentes, duras y muy fáciles de ensamblar. Las partes central, laterales y los paneles tienen un sistema de encaje mediante presión fuerte que no requiere tornillos para su montaje.

- Cajas de instrumentación móviles y de sobremesa.
- Gran superficie para elementos de mando e interfaces.
- 2 anchuras estándar: 42 TE y 63 TE.
- 4 alturas estándar: 1 HE, 2 HE, 3 HE y 6 HE; piezas laterales, versátiles y combinables entre sí en 3 alturas (0,5 HE, 1 HE y 2 HE).
- Posibilidad de configuraciones adicionales de los paneles laterales para permitir agrandar las cajas para, por ejemplo, apilar varios ensamblajes en una unidad.
- Las nervaduras de refuerzo inyectadas aseguran que estas cajas ligeras tengan un alto grado de resistencia a la torsión y rigidez.
- Inclinación ergonómica mediante pies antivuelco o un asa robusta, que está diseñada como elemento de transporte.
- Los problemas de ventilación pueden solucionarse mediante la inserción de módulos con paneles de ventilación integrados.
- Ensamblaje robusto mediante clips de presión.
- Tiempo montaje mínimo gracias al mecanismo de cierre a presión especial de OKW.
- Paneles frontales de aluminio adicionales de fácil inserción.
- Personalice la EURO CASE según su diseño corporativo, por ejemplo, seleccionando los paneles laterales en los colores corporativos.
- Categoría de protección < IP 40
- Cabezales de fijación internos para placas de circuito impreso y piezas de montaje.
- 4 pies de goma antideslizante incluidos.

# EURO CASE

## Ejemplos de aplicación

- Periféricos informáticos, módems e interfaces
- Tecnología de redes
- Control de procesos
- Recopilación de datos de dispositivos electromédicos
- Tecnologías de medición y regulación

Light therapy device

## Modificaciones específicas del cliente

¿Qué necesita en su producto personalizado? En caso necesario, le suministramos las cajas y botones giratorios listas para el montaje con todas las modificaciones y acabados precisos.
