

EURO CASE

Amplas Caixas de Instrumentos

EURO CASE é uma caixa inteligente, resistente e muito fácil de montar. Seus lados, secundários e todos os painéis de encaixe têm um forte grampo junto ao mecanismo que não requer parafusos.

- caixas de instrumento para mesa de trabalho ou eletrônicos portáteis
- amplo espaço para elementos de comando e interfaces
- duas larguras padrão: 42 TE & 63 TE
- quatro alturas: 1 HE, 2 HE, 3 HE, 6 HE; painéis laterais em três tamanhos (0.5 HE, 1 HE e 2 HE)
- painéis laterais adicionais podem ser configurados para permitir caixas com alturas maiores, isto é, vários conjuntos para ser empilhados juntos em uma unidade
- frisos de reforço moldados por injeção asseguram que estas caixas convenientemente claras tenham uma elevada resistência e rigidez à torção
- ergonomia ao utilizar o pé inclinado ou a robusta barra de alça de transporte que também é projetada para uso portátil.
- problemas na refrigeração podem ser abordados pelos painéis de encaixe com ranhuras de ventilação integrados
- robusta montagem de grampos juntos
- mínima quantidade de montagem necessária, graças ao mecanismo de encaixe bloqueado especial OKW
- painéis frontais de alumínio solicitados separadamente, simplesmente de deslize
- personalize o EURO CASE para seu próprio design corporativo, por exemplo, selecionando os painéis laterais e painéis de encaixe nas cores de sua empresa
- classe de proteção < IP 40
- pilares de parafusos internos para PCB e etc.
- quatro pés antiderrapantes inclusos

EURO CASE

Exemplos de aplicação

- Tecnologia de medição e controle
- Dispositivos periféricos
- Equipamento de laboratório
- Dispositivos médicos e bem-estar

Light therapy device

Modificações específicas do cliente

O que você ainda precisa em seu próprio produto pessoal? Nós podemos fornecer caixas e knobs de ajuste com todas as modificações necessárias para a montagem de seus componentes eletrônicos.
